

Opening the Crafting Table

Finding the Table

The Crafting Table is a dark industrial desk entity placed somewhere on the map. Look for the **Crafting Table** prop — it uses a control-room desk model.

Opening the Menu

Stand next to a Crafting Table and press **E (Use)** to open the crafting menu.

The UI

The menu has 8 category tabs across the top: **Trophies, Weapons, Entities, Misc, Food, Brews, Tools, Resources**.

Clicking any recipe shows:

- Every required material and how many you currently have
- The total money cost for the craft
- A **Craft** button (greyed out if you are missing anything)

Materials you are short on are highlighted so you can see exactly what to gather before crafting.
